

ASSET DISPOSAL STRATEGY 2006 - 2009

PREFACE

The Asset Disposal Strategy allows an agency to cull redundant assets that might otherwise reduce efficient and effective service delivery. The strategy involves two separate and distinct elements – the detailed assessment of assets identified as surplus and the analysis of the physical disposal of an asset.

The services we deliver are outlined in our Corporate Plan, Results and Services Plan and Team Business Plans. They are also summarised in our Asset Strategy.

ASSETS SURPLUS TO SERVICE DELIVERY

We regularly review our asset register, identifying those assets that are no longer required. Surplus assets are disposed through a number of means including auction, donation to charities or destruction. Our surplus assets identified and disposed of in 2005-2006 were due to technological obsolescence.

Currently we do not have a significant number of surplus items on our asset register. As well, with most of our assets purchased in the last three years, we do not anticipate any significant disposal activity over the life of this strategy.

ASSOCIATED STRATEGIES

The following strategies are to be read in conjunction with this strategy:

- Results and Services Plan
- Total Asset Management 2006 - 2009
- Asset Strategy 2006 - 2009
- Capital Investment Strategy 2006 - 2009
- Asset Maintenance Strategy 2006 - 2009
- Office Accommodation Strategy 2006 - 2009
- Information and Communications Technology (ICT) Strategic Plan 2006 - 2010
